Chapter two

2

Eight armed hunter

Octopuses hunt crabs and other small animals. An octopus will smother a crab with its

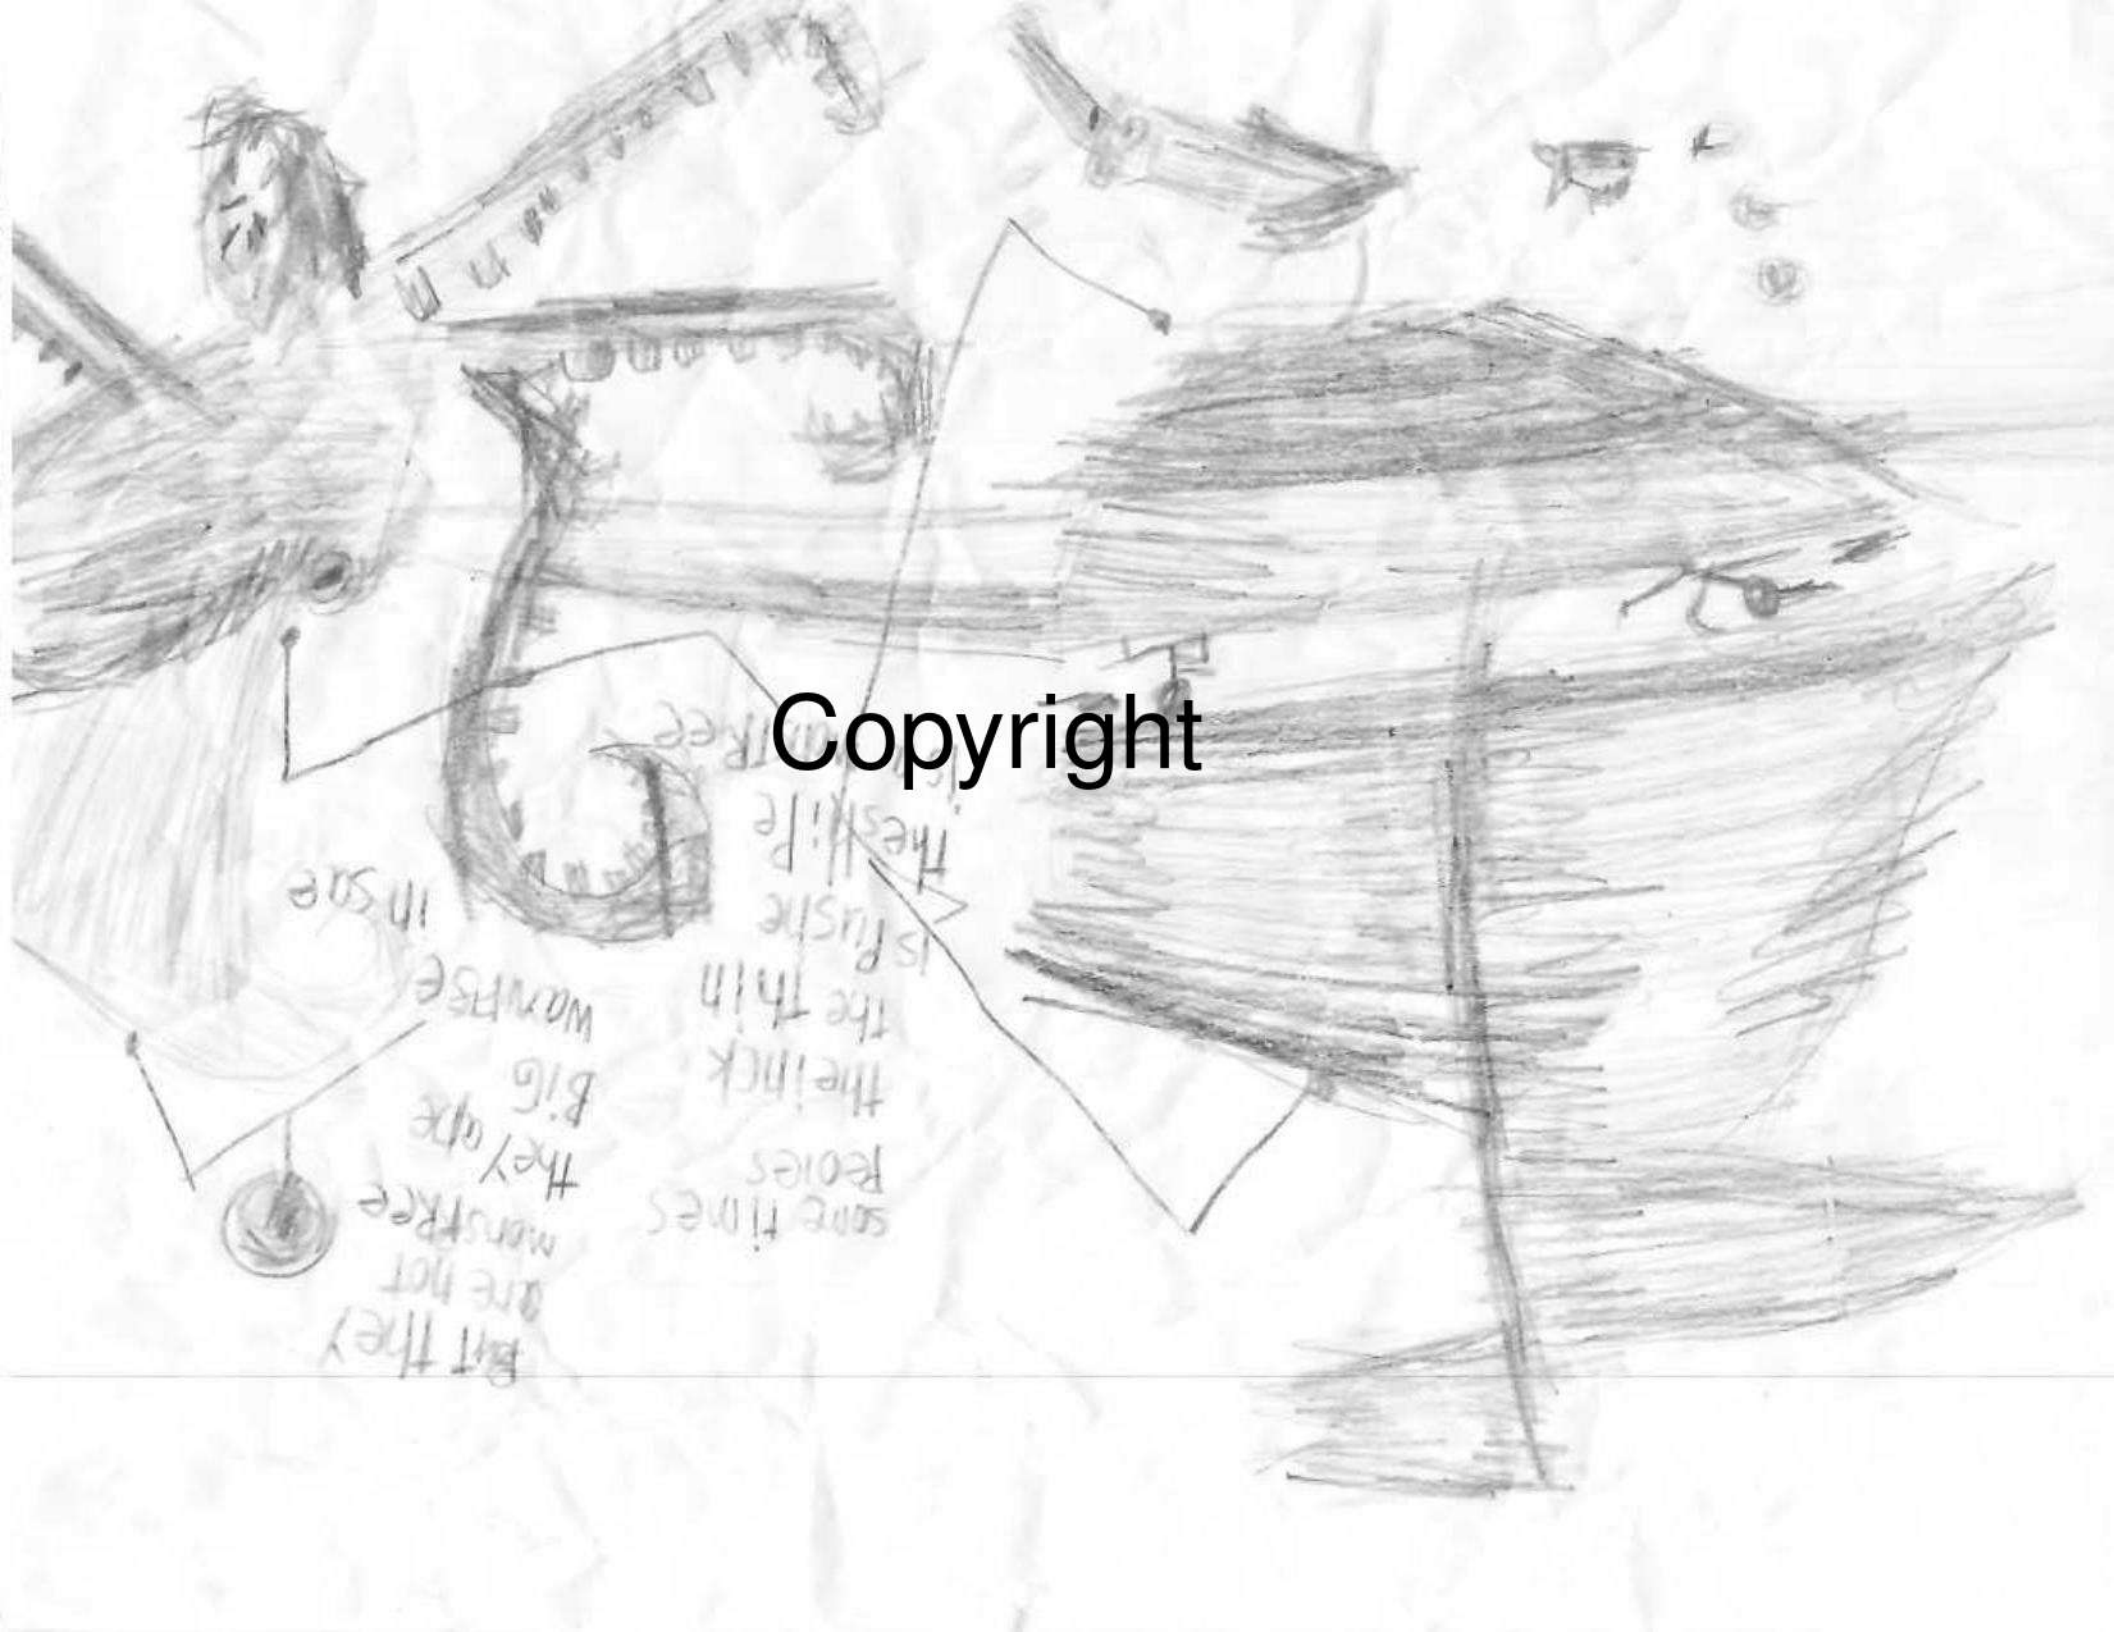

long arms and then give the crab a venomous bite.

A watercolor illustration on a white background. In the center, a crab is depicted with a reddish-orange body and legs, and a dark grey shell. To the left, a small blue fish is shown swimming. The bottom of the scene is filled with green and yellow washes representing seaweed or coral, with a brownish area on the left. A small red dot is visible in the upper right quadrant. The word "Copyright" is printed in black text across the middle of the image.

A pencil sketch on lined paper depicting a stylized, abstract figure. The figure is composed of various curved, overlapping shapes, some filled with dense hatching or cross-hatching. Several circular or oval shapes are scattered across the figure, some with concentric outlines. The overall style is expressive and gestural. A large, black, sans-serif watermark reading "Copyright" is centered over the middle of the drawing.

The image features several pencil sketches of a plant. A central, detailed sketch shows a single leaf with a pointed tip and several parallel veins. To its right is a larger, more complex sketch of a flower or seed head, showing a rounded base and several pointed, radiating structures. Faint, larger-scale sketches of the entire plant are visible in the background. The word "Copyright" is printed in a bold, black, sans-serif font across the middle of the page, overlapping the central leaf sketch.
